## Business Update

Dec 2013

Hello, everyone.

For our final update for the year, I'm very pleased to say that the ANUCV Investment Committee has approved our final tranche of \$200k and I took receipt of the cheque after our last board meeting for the year this morning. This is great news because it really lets us put our heads down and get 2014 off to a flying start.

Just a couple of other quick updates for you:

1. We've received our R&D money
2. We're hoping to hear about our CA grant early in January, but it all depends how long it takes to go through the Department of Finance.
3. I will be heading back to the UK for a trip in Jan/Feb and Mat will go in Feb/March to keep things moving in the right direction. This will be to talk to customers (existing and new) as well as potential strategic investors/partners.
4. The Board is currently considering all options for our UK expansion plans

Thanks to all of you for your support over the year. Have a very safe and happy holiday, and I'll look forward to giving you our first update for 2014 in a few months.

Kind regards,

**Catherine Prosser**
